Steam Roller Methods Expected to Push Franchise Through Upper Branch.

NOT ALL SMOOTH SAILING

Some Members Demand Guarantee of Service in Residential Sections.

Wilton F. Jenkins, vice-president of the Richmond and Henrico Railway Company, is circulating a call for a meeting of the Board of Aldermen for meeting of the Board of Aldermen for Wednesday night at 8 o'clock, when efforts will be made to use the same steam roller tacties in forcing through the light and power franchise that proved so effective last Friday night in the Common Council. The Board is reported about evenly divided, the ad-vocates of the Henrico Company claim-ing a safe majority in favor of giving away the franchise for its nominal bid of \$10.

of \$10.

Will Not Have Smooth Sailing.

The applicants will not have entirely smooth sailing in the upper branch, however. Several members have announced their intention to oppose any franchise which fails utterly to secure light service for the residential sections, such as Church Hill. South Richmond and the southern section of Clay Ward. Under the paper adopted by the Council, the company adopted by the Council, the company is only required to build its initial route through the manufacturing and business section, and any extension thereafter can only be obtained after the passage of a special ordinance by the Council, which ordinance can be litigated indefinitely.

It is significant that the most vigorous adherents of the Henrico Railway's side of the contention, the dele way's side of the contention, the delegates from the East End, from the south eide of Clay Ward and from South Richmond, come from sections which will be unable to get light under the franchise the Common Council has voted to sell, since the burden of proof
